Have you received fire and police protection services? *Yes, but nobody really understands the boundaries still, we get duplicate services from county & city.*
Have you petitioned for water service, sewer service or road improvements?

We have petitioned for road improvements but since the city annexed us but not the properties next to the road, they say they don't have to take care of it, because it's still (city) county maintained since there are not any city-annexed properties on 81st St. The city is not complying with their annexation service plan as expected. The part of 81st St. between West St & Buena Vista has larger potholes now that the city has started maintaining it than it ever did when the township was maintaining it. So basically, we get to pay higher taxes and have nothing to show for it. So basically, we got screwed. I feel the way they handled this whole annexation of us is very unethical. Very frustrating!
