Facilities retained the services of Spewick Preservation Consultants, Inc. (SPC) in the fall of 2010 to make recommendations on how best to maintain the Historic Courthouse exterior stone masonry. The State Historic Preservation Office and the Wichita Historic Preservation Department who must ultimately approve any preservation work rely heavily on the professional opinion of SPC for such projects. SPC recommends nothing be done to the stone at this time. For that reason, no further work or expenses will be incurred related to the stone treatment CIP project.

Subject: Approved Inactive CIP Project - Stone treatment and Repair

Steve

We have several projects that were approved and funded but are now inactive.

I need to know what the plans are for each of these.

FOR

93962-402	>	Stone Treatment/Repair-Historic Courthouse	Bond	694,609
-----------	---	--	------	---------

1. Can the internal order be closed?
2. If bond funded, can the project be reduced either to actual costs. In this case, it costs are \$4, 4477.84 for furniture installation/disposal. (the invoice says consolidation of furniture to single location)
3. If cash funded can the project be reduced to actual cost and the remaining funds made available for upcoming CIP Amendments

If appropriate we will formalize a either an individual or a consolidated consent agenda item to amend the CIP to close/delete the project. ***To do so, I need a document to support the action.***

Please advise.

Thanks.
