**Re: Agreement for the Construction Drainage Improvements – 63rd St. S. and Ridge Rd.
Occidental Chemical Corporation - Wichita Plant
6200 South Ridge Road
Wichita, Sedgwick County, Kansas 67215**

Dear Mr. Weber:

Please see the enclosed agreement between Occidental Chemical Corporation (OxyChem) and Sedgwick County for the drainage improvement project to be implemented at 63rd St. S. and Ridge Rd., adjacent to the OxyChem Wichita Plant. Please note that OxyChem has signed the agreement, but that additional signatures are needed from Sedgwick County. Once the remaining signatures are obtained, please have an electronic copy of the executed agreement emailed to me at Nicholas_Bell@oxy.com.

Over the next few weeks, OxyChem will be sending out bid request for this project to three local contractors. When all three bids are received, OxyChem will forward copies of the bids to Sedgwick County and discuss with Sedgwick County before awarding a contractor the job. As stated in the agreement, OxyChem will fully fund the project upfront and will then bill Sedgwick County 50% of the total project cost upon project completion.

If you have any questions regarding the enclosed agreement or the drainage improvement project, please feel free to contact me by phone at 316-529-7316 or by email at Nicholas_Bell@oxy.com.

Sincerely,

Nicholas E. Bell
Associate Environmental Engineer
