Mr. Raymond,

Please find enclosed two copies of a letter signed by Jerome T. Younger, Deputy Secretary and State Transportation Engineer for Kansas Department of Transportation (KDOT) asking for acknowledgement by Sedgwick County to reimburse KDOT for expenses incurred in conjunction with the installation of Sedgwick County equipment on the State's radio tower.

Please review the letter, and if in agreement, execute and sign both copies. Return one executed copy to me at the address below for KDOT's records. Once we receive the executed copy, we will proceed with purchasing the equipment listed on the attachment with the enclosed letter.

Contact me if you have any questions regarding this request. Thank you.

Regards,

Edwin D. Geer
Communication System Administrator

Re: Tower Access Lease Agreement (TAL 120052), dated September 1, 2012,
between Sedgwick County, Kansas (the "County" and "Lessee"), and the Kansas
Department of Transportation (the "KDOT" and "Lessor"), (the "Lease Agreement")

Dear Ms. Pennington and Mr. Raymond:

I am advised by Mr. Edwin Geer, KDOT, that the Lessor is ready to proceed with the installation of the Lessee's communication equipment on KDOT's communication tower; all of which are described in and the subject of the above referenced Lease Agreement. The Lease Agreement at Paragraph 5.2(c) provides in part thus:

"(c) Lessor agrees to install Lessee's Equipment, and Lessee shall be responsible for all costs incurred by Lessor to install Lessee's Equipment on the Communication System Tower. Lessor shall submit an itemized statement to Lessee. Lessee shall reimburse or otherwise pay all of such costs to Lessor. Further, Lessee agrees to any changes to the installation of Lessee's Equipment as required by Lessor. Lessor may approve and authorize Lessee's contractor or agent to install any of Lessee's Equipment"

Please find attached an itemized list of the individual items of equipment which KDOT and the County have identified as being required to effect the proper and correct installation of the Lessee's equipment on Lessor's tower. Because of the relative size of the cost of this equipment for which KDOT must seek reimbursement, it appears prudent and in the best interest of both parties to secure prior approval and agreement regarding the cost and immediate reimbursement for this installation expense. Accordingly, we ask that you please review the attached installation equipment list and the estimated cost associated therewith and advise me that (1) you agree with the required list of equipment, (2) you agree with the estimated collective cost for the items identified and listed on the attached list, and (3) that the County will reimburse KDOT within 30 days of being invoiced for the same. If you agree with all three of these requirements, please indicate so in the space provided below and provide the date of execution. Upon receipt of your approval, KDOT will proceed with arranging for the necessary acquisition of the installation equipment and the installation thereof.

Please advise should you have any questions, comments or concerns. Thank you.

Very truly yours,

Jerome T. Younger, P.E.
Deputy Secretary and State Transportation Engineer
