Subject: RE: Postannexation hearings set for Aug. 25, 2010 / Additional hearing to be set for Ord. No. 1103-05

Mr. Parnacott-

I wanted to let you know that several members of VC staff will be present at the meeting on the 25th. Those planning to be present are Kristine Polian, City Clerk; Mark Hephner, Police Chief; Mike Kelsey, City Engineer; Richard Dunn, Public Works Director; Eldon Miller, Community Development Director. I plan to represent City and present testimony.

Attached please find the recently adopted Street Light Policy. City staff has reviewed City Standards and has contacted Westar Energy to have street lights installed in accordance with City Standards. Any additional street lights will be installed in accordance with the attached policy. The City has reviewed the "Valley Center Emergency Siren Location and Range Map" as prepared by the County Emergency Management Department and has determined current siren coverage is adequate.

Please let me know if you have any questions or need additional information for the hearings scheduled on Aug. 25, 2010.

Thanks,

Joel Pile, City Administrator
City of Valley Center
