To Whom It May Concern;

RE: PUD2014-00003

It has been brought to our attention that there is a request for a zoning change in SW Sedgwick County that could increase traffic in area's that we travel with our Farmers Coop application equipment, grain hauling, and service equipment needs.

The Farmers Coop operates in Sedgwick, Sumner, Reno, and Kingman counties. We have 11 operating locations throughout these counties as printed in our letterhead above. Our sales will usually range from \$60 to \$80 million on an annual basis, thru grain handling, crop production nutrients, feed, seed, and energy product delivery.

We utilize these side roads for safety and out of respect to others as much as reasonably possible and opt to stay off of the higher traffic county and state roads. We travel the township roads from Garden Plain and Cheney to Clonmel.

We would respectfully request you reconsider any change of zoning status from the current application in use. Thank you for your time!

Respectfully Yours,

Terry Kohler, President / Manager.
