RE: Letter Addendum: FY '16 Participating CMHC Agreement

Dear Marilyn Cook:

I am writing in reference to the Participating CMHC Agreement (hereafter "the Contract") that was executed among the parties. As was discussed during the negotiations of the Contract in 2015, there was the possibility of needing to amend the contract to reflect funding for non-Medicaid screens (previously funded through Kansas Health Solutions) and formerly Medicaid State Hospital screens (previously funded through the Kansas Managed Care Organizations), hereafter both of the aforementioned screens shall be referred to as "the screens".

This amendment necessitates that Sedgwick County, Kansas coordinate the screens through a contractor currently designated as Kansas Health Solutions. Total compensation to paid to Sedgwick County, Kansas to perform the screens for January 1, 2016 through June 30, 2016 shall be \$220,629.10. After this Letter Addendum has been fully executed, KDADS shall issue the full payment within a reasonable time.

The only purpose of this Letter Addendum is to modify the amount paid to complete the screens. Other than this amendment, this Letter Addendum does not make any further changes to the Contract.

If you are in agreement with the terms of this Letter Addendum, please sign, date the attached signature page and return it to Diana Marsh. Once the document has been fully executed, KDADS will provide you with a fully executed copy.
