## EXHIBIT B

### PURPOSE, GOALS, AND OBJECTIVES

According to the Department of Justice's 2011 Midwest High Intensity Drug Trafficking Area Report ("HIDTA"), the biggest drug problem in Sedgwick County is heroin. Heroin is being heavily marketed to existing opioid abusers in suburban and rural communities and in smaller markets in Kansas and Missouri, where the drug was previously unavailable. Law enforcement officials in these areas report that many abusers have transitioned to heroin use from prescription opioids due to heroin's much lower price. For example, oxycodone abusers with a high tolerance may typically ingest 400 milligrams of the drug daily (five 80-mg tablets) at a cost of \$400, while the cost for one unit of heroin is typically much lower – about \$20 in Wichita, Kansas. Consequently, the U.S. Department of Justice has designated Sedgwick County as one of 16 counties in Kansas that are part of the Midwest High Intensity Drug Trafficking Area.

In 2014 we screened 813 patients for depression and follow-up 10,253 patients in 2015. A total of 1,950 patients in 2014 and 1,661 patients in 2015 were diagnosed by our primary care providers with depression or anxiety and received 2,810 visits in 2014 and 4,278 visits in 2015. In addition, 481 patients in 2014 and 715 patients in 2015 were diagnosed with alcohol and other substance abuse disorders and they were provided 546 patient visits in 2014 and 928 patient visits in 2015.

In response, GraceMed requested funds for the next two years to improve and expand the delivery of comprehensive, culturally competent, collaborative and integrated substance abuse disorder (SUD) services with a focus on Medication-Assisted Treatment ("MAT")<sup>1</sup> for underserved adults who reside in our service area. The project is called Pathway to Recovery. GraceMed has partnered with COMCARE of Sedgwick County, the state's largest community mental health center, to offer patients a combination of MAT and behavioral therapies. COMCARE's physicians are trained, credentialed, and experienced in prescribing these medications. The project will use FDA-approved opioid agonist medications for the maintenance treatment of opioid use disorder (OUD) and opioid antagonist medication to prevent relapse to opioid use. Together, COMCARE and GraceMed will provide an evidence-based, recovery-oriented system of care to give patients the resources, guidance, and ongoing treatment needed to rebuild their lives, health, and relationships.

This grant allows COMCARE to hire a **Behavioral Health Consultant (BHC)** that will integrate at our main clinic. The plan is to utilize the BHC previously hired (Deborah Von Stroh) for our GraceMed COMCARE location 1919 N. Amidon. Deborah will start out at the Galloway location (main clinic) as we search for a BHC for this location. Deborah will then train her replacement and move back to the GraceMed COMCARE location. This position will report to Joan Tammany, Director of Quality/Risk Management/Compliance and Innovation with COMCARE with Venus Lee being the liaison supervisor between GraceMed and COMCARE for this position. We will also hire a **Case Coordinator** who will report to Pamela Bevan, Community Care Director. We will start the posting for both positions the week of April 25, 2016. Position descriptions will be provided closer to the start date. This program will also provide transportation to the MAT appointments.

**Note:** The transportation services/cab vouchers are for the program and prohibit for any other use.

---

<sup>1</sup> "MAT" services are a coordinated bundle of services provided by a recognized SA-treatment organization, COMCARE using psychiatrists, SA counselors, nursing staff, etc.

Upon receipt of GraceMed's Notice of Award, GraceMed was were tasked with forming an Integrated Care Team Council, consisting of Venus Lee, Joan Tammany, Dr. Elder, Dr. Nolte, Deborah Von Stroh, Pamela Bevan, Heather Sell, Kendra Porter and Jason Ybarra. This council is responsible for carrying out all goals proposed within the grant. GraceMed's Quality Improvement Committee is responsible for monitoring the outcome of these goals. GraceMed's CEO and Board President is responsible for reviewing and approving any Plan updates.

**UDS Goals:**

- Hire a BHC and Case Coordinator
- Provide Substance abuse services to 600 patients
- Provide 1,500 substance abuse services
- Provide SBIRT services to 5,000 patients

**Capacity limitations for the MAT program:**

At this point GraceMed will purchase treatment "slots" from COMCARE to create health center-funded access to needed MAT for up to 100 patients with opioid use disorders per year for the next two years. MAT services include medications, lab testing and specimen collection. For these patients, GraceMed will cover the Taxi or local transportation. GraceMed Case Coordinator will be instrumental in this process.

**Short Timeline:**

On April 22, 2016, the plan will be presented to the CEO and Board President.

The week of April 25, 2016, we will post the Case Coordinator position. BHC position posting for Galloway yet TBD.

On April 29, 2016, we will have our first Integrated Care Team Council Meeting.

On May 17, 2016, and June 7, 2016, our BHC from COMCARE will begin the training process for our Providers and our Medical Support Staff. This training will consist of:

- Signs and symptoms of substance abuse and dependence, including opioid addiction;
- Effective treatment modalities available and utilized for these disorders;
- Methods for screening for substance abuse disorders; and
- Procedures to follow when patients with substance abuse disorders are identified, with a particular focus on patients with opioid use disorders.

On May 18, 2016, we will train frontline staff on logistics.

On May 20, 2016, present to Quality Improvement Committee.

Our start date goal is June 6, 2016.

We proposed that the following process and outcome measures to demonstrate improved access to substance abuse services by addressing identified needs through our evidence-based methodological approach would be the:

- Number of patients screened for substance abuse
- Number of patients who screened positive for substance abuse
- Number of patients who screened positive for opioid use disorder (OUD)
- Number of patients referred to a substance abuse treatment provider
- Number of patients admitted to substance abuse treatment
- Number of patients with opioid use disorder referred to substance abuse treatment program with MAT services
- Number of patients with OUD admitted to substance abuse treatment program with MAT
- Number of patients who completed treatment for substance abuse disorders, and
- Number of patients with OUD who completed treatment.

This project represents a cost-effective approach to meeting the substance abuse needs in our service areas.

**Process for positive screen, motivated for treatment:**

- Either the BHC by schedule review or by provider (PCP) initiation, BHC will conduct the substance abuse screening
- Screening is positive, BHC provides brief intervention
- Patient is motivated for substance abuse treatment
- BHC submits a referral to treatment through the Case Coordinator for either MAT or other SA Services based on the BHC and PCP recommendations
- Case Coordinator follows up with treatment
  - If treatment is completed the referral is closed
  - If treatment is not completed patient is to be referred back to the BHC

**Process for positive screen, not motivated for treatment:**

- Either the BHC by schedule review or by provider (PCP) initiation, BHC will conduct the substance abuse screening
- Screening is positive, BHC provides brief intervention
- Patient is NOT motivated for substance abuse treatment
- BHC schedules an additional appointment if allowed with the patient for an additional brief intervention and repeats the cycle
- The goal; having the patient be motivated for substance abuse treatment.
