Contractor's Comments:

Daniel Schrant and Penny Evans, Sedgwick County Engineers and their Consultant, PEC, were continually objective,
cooperative and constructive in all ways while we were working together to provide viable solutions
to the changes in the scope of work.

KDOT's Comments: (Sedgwick County's Comments)

This project is one of Sedgwick County's most successful due to the cooperative attitude, and scope
adjustments without a significant change in contract price. The Contractor was mindful of appropriate work
and scope within the repair concepts - making adjustments to deck repair depths and methods to minimize
overruns, and only repair areas as needed. The Contractor joined in developing methods to mitigate scour and
create a repair plan that fit the exposed site conditions. The bridge scour was discovered during KDOT
