SECTION 3. The following sections of the UZC, as identified, are hereby amended to read as follows:

The supplementary use regulations of this section are not applicable to Lots in the AFB Air Force Base District. In the case of conflict with zoning District property Development standards or other regulations of this Code, the more restrictive requirement shall apply, unless otherwise specifically provided.

Article III, Section III-D.6.g.:

- g. **Wireless Communication Facility.** Whether allowed by right, subject to a Building Permit, by Administrative Permit, by CUP adjustment/amendment, by P-O adjustment/amendment or by Conditional Use approval, a Wireless Communication Facility shall be subject to the following provisions.
  - (1) A Wireless Communication Facility shall be evaluated in terms of conformance to the guidelines in the "Wireless Communication Master Plan" as adopted by the Governing Body, and applications for such facilities shall include information for review as required in that Plan.
  - (2) A following Wireless Communication Facility is permitted by right in any zoning District, subject to the issuance of a Building Permit, if it conforms to the Location/Design Guidelines in that Plan:
    - (a) new facility that is concealed in or mounted on top of or the side of existing buildings (excluding single-family and duplex residences) and other Structures, including support structures up to 20 feet above the Building or the maximum height permitted by a Building Permit or an Administrative Permit in the underlying zoning District, whichever is greater;

If the Zoning Administrator determines that the Wireless Communication Facility does not conform to the Location/Design Guidelines, the Building Permit shall be denied. Denied Building Permits may be appealed by applying for an Administrative Permit or a Conditional Use. An Administrative Permit shall be approved subject to conditions that maintain conformance with the Location/Design Guidelines. A Wireless Communication Facility that does not conform to the Location/Design Guidelines may be approved for a Conditional Use on a case-by-case basis as circumstances warrant.

- (3)** A Wireless Communication Facility shall be approved by Administrative Permit in any zoning District, under the procedures in Sec. VI-G.9 and Sec. VI-H.5, if it conforms to the Location/Design Guidelines in the "Wireless Communication Master Plan" and, for zoning Lots located within the City, is designated on the "Properties Eligible for an Administrative Permit for a Wireless Communication Facility Map" of Sec.   - (c)** new undisguised ground-mounted facilities up to 85 feet in the NO, GO and NR zoning Districts that comply with the compatibility height standards as outlined in Sec. IV-C.5, which shall not be reduced or waived through the provisions of Sec. V-I.2.e.;
  - (d)** new ground-mounted facilities up to 120 feet in height in the RR, SF- 20, U , LC, OW, and GC zoning Districts that comply with the compatibility height standards as outlined in Sec. IV-C.5, which shall not be reduced or waived through the provisions of Sec. V-I.2.e.; or

If the property on which the facility is located is within a CUP or P-O, the Administrative Permit shall also be considered as an application for an adjustment of the CUP or P-O as outlined in Sec. V-E.14, excluding the requirement of V-E.14.a, or Sec. V-C.14, excluding the requirement of V-C.14.a., as applicable.

- (4)** A Wireless Communication Facility that does not meet the requirements of Sec. III-D.6.g(2) or Sec. III-D.6.g(3) shall be reviewed through the Conditional Use process as outlined in Sec. V-D or, if the property on which the facility is located is within a CUP or P-O, as an amendment to the CUP or P-O as outlined in Sec. V-E.13. or Sec. V-C.13, as applicable.

Temporary lighting for nighttime repairs shall be permitted.

- (6) No signs shall be allowed on a Wireless Communication Facility other than those required by applicable governmental agencies.
- (7) Unused facilities, including the uppermost 20 percent of support structures that are unused (except where removal of the uppermost 20 percent would require the removal of a lower portion the support structure that is in use, in which case the required removal will be raised to the next highest portion of the support structure not in use), shall be removed by the owner within 60 days if the Wireless Communication Facility, or portion thereof, has been unused for 12 consecutive months. If such a facility or portion of a facility is not removed by the owner, then the City or County may employ all legal measures, including, if necessary, obtaining authorization from a court of competent jurisdiction, to remove it, and after removal may place a lien on the subject property for all direct and indirect costs incurred in its dismantling and disposal, including court costs and reasonable attorney fees. Under this paragraph, "owner" shall include both the Owner of the real property and the owner of the Wireless Communication Facility, whether such ownership is divided or in the same person.
- (8) All Wireless Communication Facilities shall comply with all federal, state, and local rules and regulations.

Article IV, Section IV-C.5.:

- 5. Compatibility Height standards.** The following Height standards shall apply to Development that is subject to compatibility standards, unless reduced or waived through the provisions of Sec. V-I.2. No Structure shall exceed 35 feet in height within 50 feet of the lot line of property zoned TF-3 or more restrictive. Structures located more than 50 feet from the Lot Line of property zoned TF-3 or more restrictive may increase Height (if permitted by the base District regulations) at a ratio of one foot in Height for each three feet of Setback beyond 50 feet. For example, a Structure limited to 35 feet in Height at 50 feet from the Lot Line of property zoned TF-3 or more restrictive could be increased to a Height of 85 feet at a distance of 200 feet from the Lot Line of property zoned TF-3 or more restrictive.
